

To the National Organization of Professional Black NRCS Employees
James E. Tatum Scholarship Committee,

The James E. Tatum scholarship means to me that the James E. Tatum Committee and the National Organization of the Professional Black NRCS Employees are willing to help me with my education.

This scholarship will help me reach my career goals by causing me to not stress about paying for school while attending the university. This could result in my grades improving simply from not being stressed. The improvement of my grades will play a huge role in my education here at Prairie View A&M University. As well as reducing my stress level, it allows me to realize that there are people here to support me. I believe knowing this is the most important role that this scholarship plays because having that support system from not only my family but people that don't know me is very reassuring that I'm going in the right direction for my education and staying my course for graduation. Once I graduate from Prairie View A&M University, I plan to attend Veterinary School. This scholarship will allow me to increase my GPA causing my application to Vet School to look increasingly better and will increase my chances of getting into Vet School. My GPA, volunteer hours, and shadowing hours will play a crucial part to where I get into Vet School. This scholarship allows me more time that I don't have to spend at work. If I didn't have this scholarship I would have to work long hours and try to pay for school. After receiving this scholarship, I am able to spend more time volunteering places and shadowing a Veterinarian in the field that I plan to be in. This scholarship will help in more ways than one and for that I am very thankful.

Sincerely,
Faith Isabelle
